Allowable Subject Matter

Claims 13, 20, 22-26, and 31-32 are allowed.

The following is an examiner's statement of reasons for allowance: Referring to claims 13, 20, and 26, the prior art's references of record do not disclose that the cap is of magnetic material. The prior art's references of record do not disclose an attracting magnet positioned outside of the cap.

Referring to claims 22-25, and 31-32, the prior art's references of record do not disclose that the attracting magnet is on an end face of the stator core such that the attracting magnet faces the through-holes and is axially spaced from the through-holes. These features allow the bearing to hold its oil, and generate an attracting force in an axial direction without adversely affecting driving-magnetic-circuits. The motor can be low in profile and run at a high speed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Guillermo Perez whose telephone number is (703) 306-5443. The examiner can normally be reached on Monday through Thursday and alternate Fridays.
